By Juancant believe how amazing the illustration and different art styles are in this book, they definitely hit every imaginative perspective on how to present Miku. Being a fan for almost a year I love going online and looking at Miku's art and each of her versions. This book has about 50 different styles and illustrations with a well-balanced composition of pictures in each page. However, I wish they had

made sure to make some pictures a lot larger so you could see closely the detailed, but then again we are talking about a 95 page book. If you're a Miku fan and are drawn by her beauty and style, you need to get this one. 2 of 2 people found the following review helpful. A book full of Beautiful Artwork on Miku By Animator22 This is the first art book I've received on the popular digital pop star and it contains some of the most beautiful artwork I've seen on Miku from many, many different artists. It's great to see each artist putting their own flair and style on her. Each artist is highlighted every 2-3 pages and each has a little message to the reader and a link to their site to view more of their work. This book is not a flimsy paperback, each page is using really good quality thick paper and every image printed really pops. I highly recommend this book if you want to see some very talented artists all gathered together to create their own image on Miku. 1 of 1 people found the following review helpful. Love the Graphics By JGTrejo What can I say it was made well. The art in it, is beautiful. The colors and the image is speechless. The different artists that contribute to this are somewhat well known if you are into this genre of entertainment. It arrived early, I'm happy to have this in my collection.

Superstar Japanese idol Hatsune Miku stars in her own character artwork showcase! CV01 collects more than 40 artists' spectacular takes on the Vocaloid diva. Over 150 illustrations feature themes from high-fashion to everyday activities, pin-up style pieces to musical performance, and more!
