Spanning from its inception to this modern age. I am so delighted to both take a trip down filmation memory lane and uncover material from the past I was not exposed to. Just as much attention was paid to the successive years into the present day. I hope other cartoon properties have these folks create similar tomes for them.0 of 0 people found the following review helpful. Now I have the power!By Joe KesslerThis book is chock full of great information about the Masters of the Universe. It has quite a bit of trivia. It is

organized in a very concise and readable format. I nice dive into a childhood favorite and more.0 of 0 people found the following review helpful. Five StarsBy GarrettGreat book just wish they gave the height and weight for there main star

This is the most comprehensive guide ever published, covering all things Masters of the Universe and Princess of Power from 1982 through today! The universe of He-Man and She-Ra is full of mystery. And thanks to over four thousand individual entries covering characters, beasts, vehicles, locations, weapons and magic, you can learn the secrets of this entire universe!
