Hedi Slimane : Hedi Slimane: Anthology of a Decade, France before purchasing it in order to gage whether or not it would be worth my time, and all praised Hedi Slimane: Anthology of a Decade, France:

0 of 1 people found the following review helpful. Great productBy Claire BouillonThe book arrived in really good shape, just the cover had a little defect-a bubble on the flag- but not from the sender (surely from when it was made). The delivery was on time, and the product is of good quality. I would recommend it to anyone who enjoys Hedi Slimane during his Dior Homme period.0 of 3 people found the following review helpful. Just OKBy Linda DesmetAlthough this book did ship in a timely fashion I was not happy with the cover. It was much more worn than specified....don't know if I would use this company again.

This volume collects black-and-white photographs taken in France between 2000 and 2009, including photographs taken at White Stripes, Babyshambles, Franz Ferdinand, Beck and David Bowie gigs, as well as still lifes and portraits of Gus Van Sant, Courtney Love, Pete Doherty and models from casting sessions during Slimanes tenures at Christian

Dior and Yves Saint Laurent. Of this volume, Douglas Brundage of the blog Hypebeast writes, For the Francophile fashion-freak, FR is where one can find the majority of Hedi's haute couture work with Yves Saint Laurent and Dior as well as the requisite documentation of his historical launch of Dior Homme into the fashion stratosphere. Infused with Slimane's trademark androgynous, glamorous and sleek sex-fueled aesthetic, Anthology of a Decade is revelatory as a testament to the talents of one of the greatest designers, photographers and art directors of the last ten years.
