Hedi Slimane : Hedi Slimane: Anthology of a Decade, USA before purchasing it in order to gage whether or not it would be worth my time, and all praised Hedi Slimane: Anthology of a Decade, USA:

0 of 0 people found the following review helpful. i mean it's hedi...By Reid Rollslope everything about this book except for the cover material, which wears and shows dirt and oil from you hands immediately. have to think of it as an expensive magazine i guess. the layout is amazing and hedi is genius, so i can't complain.

Two surfers carrying their boards through a canyon in San Onofre, California; artist Banks Violette's extensive network of chest and arm tattoos; the phrase "the dance floor" written across a clear blue desert sky; Gore Vidal's typewriter; a Python 357 revolver; and one of Beck's acoustic guitars are some of the subjects captured in Hedi Slimane's photographs in the USA volume of Anthology of a Decade. Taken in New York and Los Angeles between 2007 and 2011, Slimane's black-and-white images capture celebrities--including Vidal, Kenneth Anger, Ed Ruscha, Courtney Love, Joe Dallesandro, Johnny Rotten, Brice Marden, and Brian Wilson--alongside portraits of beautiful

young boys and girls (some of them models, some of them skaters, surfers or street kids), landscapes, street scenes and still lifes.
