Hedi Slimane : Hedi Slimane: London Birth Of A Cult before purchasing it in order to gauge whether or not it would be worth my time, and all praised Hedi Slimane: London Birth Of A Cult:

0 of 0 people found the following review helpful. This is a fantastic book By Customer I wanted it a long time its beyond fabulous so happy 0 of 5 people found the following review helpful. Cult! By Dell'elce Paolo A Must for every Libertines, Babyshambles, Doherty's fanatic. highly recommended to everyone interested in Brit music contemporary scene and punk / Indie rock. The pictures are awesome, the print quality almost spectacular, and the elegant package makes this book a real collector's piece. It is so rare, so I think that the price (actually around 2000 USD) for this milestone of European subculture is ok.

Over the past year Pete Doherty's life has epitomised the trajectory of a true rock n roll legend. Following a fraught departure from The Libertines, he has been vilified and cast as a scapegoat for conservative political posturing. A feeding frenzy of press coverage was precipitated by his dating Kate Moss, charges of robbery, blackmail, and carrying a knife, jail time, rehab, and admissions that he had been a prostitute and drug dealer. All of this overwhelms the most interesting aspect of the 26 year old musician's life--in a business dominated by manufactured mediocre talents, he is a true original, a charismatic frontman, songwriter, and performer. The past two years of Doherty's life are captured here in photographs taken by Dior Homme fashion designer Hedi Slimane. Doherty's current band, Babyshambles, will release a new album in Summer 2005.
