0 of 0 people found the following review helpful. Not as good as the first one By Leigh Johnson Not as much fun as the original Continuo game. Buy it if you don't have it. Probably more fun for younger kids learning to count/add. 0 of 0 people found the following review helpful. Very small. By Linda M. Rogers This was more like a travel size game. 0 of 0 people found the following review helpful. Great game! By Steven Bellavia A great and simple game for all ages!

Players gets points for matching numbers and/or colors on as many sides of the hexagons as they can. Matching both color and number means double score! Highest score wins. Includes 36 hexagons and instructions.
