John Lennon, Paul McCartney : Hey Jude before purchasing it in order to gage whether or not it would be worth my time, and all praised Hey Jude:

3 of 3 people found the following review helpful. Practically illegible even on a computerBy Brady J. FreyBy taking aggressive steps to block copying the music, it's practically illegible on even a 27" screen (iMac running full screen windows and the Kindle PC)... I've asked for it to be refunded. I hear that touchscreen devices allow for a zoom (and it does do this on my iPhone), but since this is mostly for smaller devices, I'm not interested. Just be warned, if you're using the standard Kindle for PC app at the moment, you cannot zoom in the music, and even on a large HD quality screen, it's impossible to read due to their scaling. Hopefully it'll be fixed someday, for now I just want my money back.

Satisfaction guaranteed. Hey Jude sheet music.
