**Dr. Gyora Benedek : Hidato fun 2 (Volume 2)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Hidato fun 2 (Volume 2):

0 of 0 people found the following review helpful. I LOVE this puzzleBy Music ManThis is the second volume of these I've gone through! I LOVE this puzzle! It is more about lines and connections than Sudoku, so those of us who like some feeling of movement in space in our puzzles will probably like this. It is just as logical as Sudoku, but not as abstract, and I like it a lot better.0 of 0 people found the following review helpful. Awesome Number PuzzleBy

Patricia OswaldHidato has always been my favorite number puzzle !!! I have been erasing puzzles until I found them on . Thank goodness!

Richer than Sudoku, Hidato is the perfect number puzzle to enjoy while you sharpen your mind. "Beguiling number puzzles that offer a change of pace from Sudoku. . . . Amusing and engrossing." Kirkus Reviews (on Hidato Fun 10). "Instead of the arithmetical deduction of Sudoku, Hidato . . . , is more of a workout for spatial reasoning skills; the trick is to figure out the right path through points on the grid from among all the possible pathways." Kirkus Reviews (on Hidato Fun 10). Each Hidato puzzle starts with a grid partially filled with numbers. The goal is to fill the grid with consecutive numbers that connect horizontally, vertically, or diagonally. Hidato can be solved using 100 percent logic and requires no math or guesswork. You need only careful thought and determination to reveal the secret! Hidato fun 2 presents 203 brand-new Hidato puzzles at five difficulty levels for hours and hours of fun and entertainment. Hidato is featured worldwide in magazines, newspapers, books, online, mobile and more.

About the AuthorDr. Gyora M. Benedek is a prominent computer scientist. In his spare time, he invents and develops games and logic puzzles, including the worldwide hits Lights Out, NimX and iTop. Dr. Benedek invented Hidato while scuba diving in the Red Sea.
