1 of 1 people found the following review helpful. Too many numbers make it too easy By Katie Kisko5 It's cool that the grids are so big, but I don't find the puzzles very challenging. On my first pass I can solve about 95% of the puzzle because too many of the numbers are filled in. Dissapointing, because I really was excited about a book full of difficult ones to solve. 0 of 0 people found the following review helpful. very challenging By Missy YI'm having the best time with this. I love that all the puzzles are hard, that way I'm not wading through or skipping the easy ones to get to the more challenging ones. And the grids are so big. I have not previously seen this puzzle go up to 400. Found this confusing at first, but I'm loving the challenge. 0 of 0 people found the following review helpful. Five Stars By oggyas expected

Hidoku is a fun and addicting logic puzzle game. It is very similar to Numbricks. The goal of Hidoku is to fill in the missing numbers, in sequential order, going horizontally, vertically and diagonally. Unlike Numbricks, diagonal paths are allowed. This book is ideal for you if you love to solve difficult and huge Hidoku puzzles. You do not need to wade through tons of easy Hidoku puzzles before getting to the real brain teasers. You will experience Hidoku 20x20, Hidoku 25x25 and Hidoku 30x30. You get the perfect mix of different sizes of Hidoku to keep you entertained for weeks. Once you pick up this book, you wont be able to put it back down. You have been warned! Only 1 Hidoku puzzle per page, with lots of white space for scribbling.
