**Lynn Araujo : Historical Signals and Semaphores: Collector's Set** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Historical Signals and Semaphores: Collector's Set:

1 of 1 people found the following review helpful. Well Put-Together and Fun to Play With By Deborah J. Lightfoot This is a well put-together set, with clever little aids that will help anybody who is trying to learn Morse code or semaphore. The included book is full of fascinating facts and historical details. I especially enjoyed the excerpts

from old letters. The price is extremely reasonable for such a treasure trove of fun and educational items. I'll probably be buying another set for a young family member.0 of 0 people found the following review helpful.
