**David MacEnulty : How to Beat Your Kids at Chess** before purchasing it in order to gage whether or not it would be worth my time, and all praised How to Beat Your Kids at Chess:

1 of 1 people found the following review helpful. One star for the title. 5+ for the bookBy CustomerDon't be put off by the ridiculous title (what were you thinking Mr MacEnulty?) This is an excellent book, call it a training course if you want to, that will take you from beginner to intermediate player in a very readable package. This man understands

what a beginner/intermediate player needs to know and how to present it. So many books are written by grand masters (for other grand masters? ) who have forgotten what it is like to be starting out or just wanting to improve and enjoy our chess. 3 of 3 people found the following review helpful. Great Chess Book By Mrs. Zhex This book is very well written. It's suitable for beginners. It outlines all the important rules and shows examples. In the beginning of each chapter it briefly outlines the most important points of that chapter followed by illustrations, this allows for a better understanding of each of the topics, as well as it allows one to practice what they have learned. It's a great book for anyone who wants to learn all the important aspects of the game. It's a great learning tool for parents as well as kids.

How to Beat Your Kids at Chess is a book that truly starts at the beginning, with the most basic idea of all: the straight line. This book offers clear explanations, opportunities to practice each concept before moving on, and a systematic progression of ideas. If you \* have always wanted to learn to play chess, this is the book to get you started. \* are a chess parent who wants to understand what your child is learning, this is the book for you. \* are a teacher or other adult with little chess knowledge, suddenly in charge of a chess program, then this is the book that will become your bible. \* are an adult looking for something to keep your brain active, this book will open the door to exciting and complete brain stimulation. \* have been daunted by the complexity of chess, think you don't have the patience for the game, or suffer some other fear that keeps you from trying, this book will allay all your anxieties.

About the Author David MacEnulty is an award winning teacher with over twenty years of experience teaching children and adults. He has won several Teacher of the Year awards, was named Chess Educator of the Year by the University of Texas at Dallas, received the Lifetime Achievement Award from the US Chess Federation, and was given the Lives that Make a Difference award from AE Television.
