I also like the fact he lists makeup selections and not just his own line. Although I must admit I am a fan of Ramy products. This is a great makeup tip book. Get it now. 1 of 1 people found the following review helpful. Hey men. This stuff works for guys too. By Ron Johnson Well here's a man's point of view. Who knew that this book is for men also? I never would have thought that the day would come when I would be reading through a book on makeup but I have and do. I have been using Ramy's products now for about 6 months and can already see a difference, especially on the frown lines on the forehead and the those turkey things by your eyes, don't know what they are called. They are still there but not to the extent they were. I think right now I am using about 6 of his products. I am 66 and people constantly think I am in my early 50's. Sure makes me feel great. I can't say much for my eyebrows as I am Swedish and you can't see them until you are way up close but Ramy even has a section called guybrows that is just for us guys. Let's face it, men want to look good too. I think probably one of the biggest attractions for someone is to find that person who looks like they really do care for themselves, women and

men. One product I really love is Ramy's Lip Oil. I live in Arizona and your skin dries out very fast here. I feel the dryness especially on my lips but the Lip Oil takes all the dryness away. I don't write many reviews and only do so if the product works the way it is advertised. This one does. Thank you Ramy, I appreciate your advice. I have ordered 6 books so far and am giving them away to my family and friends. Of course I have one for myself. Ron3 of 3 people found the following review helpful. Practical Makeup Hacks By Diane Westmchugh What a surprise! I thought this book's beauty tips could be useful for special occasions. Most women don't mind investing a lot of time preparing for those photo-op moments. I got advice that helps me look my best every day with a couple extra steps that only add 5 minutes to my normal routine.
