All the author does is go over some hands he played and give you a narrative on them. Even the hands he picks are questionable to me. It tells you no theory or real strategy play so the "To Win" in the title is a complete falsehood. Stay away from this junk.0 of 0 people found the following review helpful. Best

Book on PokerBy A.C. JerrollThis is the best poker book I have read. It is full of practical advice in a narration that is fun to read.How to Play Texas Hold'Em Low Limit High Rake . . . and Win!

This book will fill the gaps left by the other poker books for people who are interested in 3-6 or 4-8 limit Texas Hold'em. Being able to assess your starting hand is critical to playing Texas Hold'em. The author has listed all possible starting hands with examples of hands he has actually played.
