From teNeues : Hunger before purchasing it in order to gage whether or not it would be worth my time, and all praised Hunger:

Hunger: The Book is a look back over the ten issues and five years of Hunger Magazine, launched by photographer Rankin in 2011. The biannual magazine was born from Rankin's desire to celebrate the most creative and provocative voices in culture and fashion. The book highlights the magazine's finest moments, editorials, and celebrity portraits, as well as taking a behind-the-scenes look that includes never-before-published images, film stills, original sketches and tell-all anecdotes.

About the Author Rankin was born in 1966 in the Scottish town of Paisley, near Glasgow. After studying photography at Barnfield College in Luton, England, and the London College of Printing, he and a partner launched the monthly magazine Dazed and Confused in 1991. The first issue of his quarterly fashion magazine Rank followed in late 2000.

With *Hunger* and the accompanying HUNGERTV.com website, he reached another milestone in the worlds of fashion, photography, and beauty. Rankin also generated a lot of buzz with his charity campaigns, his work on *Germany's Next Top Model*, his documentaries for the BBC, and his attention-grabbing fashion photography.
