Garitt Rocha, Stephen Stratton : Hyrule Warriors Legends Collector's Edition: Prima Official Guide before purchasing it in order to gage whether or not it would be worth my time, and all praised Hyrule Warriors Legends Collector's Edition: Prima Official Guide:

9 of 9 people found the following review helpful. Great book but doesn't match the collectors guides.By

holnuggetBook may look like it has a cover, but its a glossy front and back illustration. No dust cover. As for the book itself, it has all the content of the last edition but now, the content for 3DS as well. I wish they would have made it MATTE like the other Zelda collector's editions. It does have the name on the binding and an eGuide, but no extra bonus trinkets. Definitely worth \$23 bucks. Definitely worth it to play both the Wii U and 3DS games. But, leave it to good old to send it in a cheap box that yields bumped corners. UGGGGGHHHH!!!!1 of 1 people found the following review helpful. Still a must have for LoZ collectors/fansBy CustomerI decided to put this review together for those who enjoy collecting the Zelda collectors edition game guides. If your someone who likes collecting them to add to your zelda collection and also enjoy the guides, hopefully this review may help a little.First and foremost, if I could, this review would be 4 and a half stars. I have decided though that it is more closely to five stars than four stars thus my "perfect" rating. Also be advised although I preordered the guide, delivered a few days late. (This also happened with LoZ Twilight Princess HD guide but was I was compensated fairly).Previous Prima Guide LoZ collectors guide have been beautiful. Typical covers with gold trimmings, along with interesting goodies that come with the guides (such as the nice LoZ Twilight Princess HD cloth that was huge enough to frame), electronic codes for the guides online, and other neat little things. Unfortunately, beside the E-guide, no goodies here. So no goodies, a very different looking guide compared to the traditional collector style, and no gold trimmings. These are personally my only complaints.On the good side, the cover is very sleek. This style and title of the game is also on the spine of the guide (for those of us that were disappointed in the Triforce Heroes collectors guide this was a huge issue as it was plain). The text and artwork are beautiful and the guide has already proved its use in the first level of the game. So its actual use is already being noted. What is also beautiful is the 80 page behind the scenes artwork and description about so many characters from the LoZ 30 year franchise. Displays their character, weapons, items, enemies, landscapes, and numerous other details and information. For those who have the Hyrule Historia it similar to that.At the end of the day I give it 5 stars. I gave Triforce Heroes 4 stars because since it IS canon (which can still be debated by some) it should of remained consistent in the style of every other zelda game. Since Hyrule Warriors Legends is NOT canon, I give it a pass for its dissimilar look to other LoZ guides. Since it is still an effective guide and has some beautiful artwork, interviews, etc. I think it is a nice guide to compliment all LoZ fans. Remember these guides sky rocket in price quickly, so get it asap while it is still an excellent price!4 of 4 people found the following review helpful. Hyrule Rules!By Barry StulbergerIf you are a fan of Legend of Zelda, this game is a must have! Beautiful graphics in 3D. There are so many missions and side-missions, this guide book really helps out. It is a beautiful hard cover collectors item. Delivered on Easter Sunday! Great to be an Prime customer.
