Auctions made EASY!!!By Wilting VioletI am new to selling on any auction site, although I have been buying on eBay for 9 years, and this makes it SO easy to keep track of EVERYTHING! Right now I am just clearing out some clutter and seeing what I can do and if I enjoy selling, but I know I need to have good records. This is a great and inexpensive way to keep track of profit/loss, where your auction is in the process, if your item has reached its destination, etc. and it is flexible. While Lynn Dralle gives you guidelines on how to use it, you can certainly customize it to suit your needs!1 of 2 people found the following review helpful. Five StarsBy Jiu Jitsu FlowsExcellent product.5 of 5 people found the following review helpful. Way overpriced product that the author doesn't even use.By SicilianI purchased a lot of this author's products, but this is the one I regret purchasing the most. For starters, it has a computer from the last century on the front, which is the first sign that this is really outdated. I watched one of the author's how to videos (which I really cannot recommend, it looks like it was filmed by a little kid, and turns out it was.) she only uses about 3 of the lines from the sheet, so you can do that with a blank note pad.

Do you sell at online auction houses such as ebay, Amazon and Yahoo? Do you have notes written here there on this that scrap of paper? Do you scramble to find something to write on when the phone rings and someone is ready to pay? Are you never quite sure what needs to be shipped and who needs feedback?With this easy-to-use loos leaf binder system for tracking your online sale, never find yourself in the dark again!Sturdy binder features 150 double-sided tracking pages and 5 tabs for organization.
