The overall message that we need to stop putting these artist on such a pedestal to the point that we make God's out of these people is ridiculous and a perspective that should be taken over consideration. I felt some of the things written about some of the artist were a bit harsh but I could understand that the trash and narcissistic mindsets the

celebrity(false idols) perpetuate needs to be shamed. Great book!

Interesting

This book covered some big names in the music industry. It also confirmed some insights that I noticed with the evil music culture. Parents please pay attention to what your children listen to and watch on television. We have to be the watchers of their souls.

For those who are curious about the so-called rumors that are heard about the music industry, I recommend you start reading this book. The author even goes as far as calling names of the "puppets" in this book as well as the evil side of the industry that has been negatively impacting the minds of those who listen. Maybe your favorite artist is displayed in this book so maybe you should read it! Rather you believe or not, I am sure you have at least entertained the thought of it so this book is worth the read.

Famous pop stars and rappers from Jay-Z and Rick Ross to Rihanna and Christina Aguilera are believed by many to be a part of the infamous Illuminati secret society. These stars allegedly use Illuminati and satanic symbolism in their music videos and on their clothes that goes unnoticed by those not in the know. Since these stars appear in our living rooms on family friendly mainstream shows like Good Morning America, Ellen, and dozens of others and are loved by virtually all the kids they couldnt possibly have anything to do with the infamous Illuminati or anything satanic, could they? Some famous musicians have even publicly denounced the Illuminati in interviews or songs. Illuminati in the Music Industry takes a close look at some of today's hottest stars and decodes the secret symbols, song lyrics, and separates the facts from the fiction in this fascinating topic. You may never see your favorite musicians the same way ever again. Includes 50 photographs.

He has a bachelor's degree in communication from California State University. The term "fighting the New World Order" is used by Mark to describe some of his activities, and refers to his and others resistance and opposition (The Resistance) to the overall system of political corruption, illegal wars, elite secret societies, mainstream media, Big Brother and privacy issues; as well as various economic and social issues. Dice and his supporters sometimes refer to being "awake" or "enlightened" and see their knowledge of these topics as part of their own personal Resistance to the corrupt New World Order. This Resistance

involves self-improvement, self-sufficiency, personal responsibility and spiritual growth.
