I was hoping for a system for remembering cards played.1 of 1 people found the following review helpful. One StarBy CustomerNot really about memory at all. A losr4 of 5 people found the following review helpful. A keeperBy tarheelnc1There is no magic bullet to give us perfect memory but this little booklet is packed with very

practical tips for making the memory process easier. It also has other useful tips to improve your odds when your memory fails you. Definitely worth the price and I would recommend the book.

This is a brilliant and original book. Three sections cover beginner, intermediate and advanced players. The tastiest morsels are to be found in the intermediate section where the author discusses how to remember vital principles in bidding and play.

If you're looking for something different in a bridge book, try **IMPROVE YOUR BRIDGE MEMORY**. This is not a course of memory lessons.
