**Alan Parker, David Bowles, Keith Bateson : In the Lap of the Gods and the Hands of the "Beatles"** before purchasing it in order to gage whether or not it would be worth my time, and all praised In the Lap of the Gods and the Hands of the "Beatles":

The Book is a chronicled review of over two decades of The Beatles giving a deeply personal insight into the lives of the 'fab four' in a way that only someone who grew up in their generation of music and songwriting can do. With additional material gleaned not only from personal experiences but also from 'key' co-contributors Alan Parker (former President of the main Beatles UK Fan Club) and from Keith Bateson (ex Radio Producer/ Musician who attended various Beatles Recording sessions), the Book chronicles a summary of leading events as they happened in the lives,

songs, and music of John, Paul, Ringo, and George. The Book is now considered a 'collector's edition.'
