While I think Sideshow is one of the greatest collectible companies ever, this book and the last one they put out really leave you wanting more..... a lot more. Their old catalogues had better pictures and way more stuff in them. Not sure if this was done as inspiration or a cash grab. I just got it so I will have to look at it more. But the tiny size is off putting and kind of insulting0 of 0 people found the following review helpful. Informative and excellent addition to the collection.By M. WatkinsSideshow does amazing work from art work and figures to collectible statues. Very nice book that gives you a behind the scenes view of the process and highlights some amazing pieces. Not for everyone but if you're a fan of their work definitely a must have.0 of 0 people found the following review helpful.
