Good but short By sternL The images to be colored are excellent but not as many as the page count would suggest. for every image there are at least two pages of prose describing the piece. On the plus side, which is why I'm giving 5 stars instead of 4, the book also contains the original for comparison which I found very helpful. 0 of 0 people found the following review helpful. It was well liked. By Jim Vohrer I gave this as a gift. It was well liked.
