His writing style is fantastic. He keeps it real, simple and down to earth. Most of all I love the way he teaches not to just play baccarat but how to play to WIN baccarat.7 of 9 people found the following review helpful. **Do Not Buy This One**By John BakerNot only is this book awful for it's smarmy tone, it also contains misinformation in certain areas. Get John May's book instead (ISBN: 0818406046).I am a borderline bibliophile, and in the rare cases when I get rid of books (usually because of duplicate copies), I donate them to the local library. This is the only book I have thrown away, because I did not want to be responsible for someone borrowing it from the library and taking it's information as true.

John Patrick explains the subtleties of baccarat to help turn players into winners. As in other table games, the baccarat player must adhere to an exacting discipline: players must have a sufficient bankroll to withstand a losing trend, must know how to manage money, and must have reliable knowledge of the game to win. Once players learn the secrets of baccarat, they may never play any other casino game.
