Time Inc. Home Entertainment : Jumbo Sudoku Pocket before purchasing it in order to gage whether or not it would be worth my time, and all praised Jumbo Sudoku Pocket:

On the contrary there are four levels: Gentle, Moderate, Tough and Fendish.I worked 2 puzzles of each category. To my surprise the Gentle level was harder to solve than the Fendish.I did not like the Killer Sudoku puzzles. The only thing good about this book is that there was only one puzzle to a page and it was easy to read.Please note that everyone has different skills for working number puzzles. What I like maybe

you do not like. Some puzzles are easy for me but not for you. The puzzles you work can be hard for me. I am merely giving my opinion on these Sudoku puzzles. I like to work these when I am waiting to be seen by doctors, in airports and on a flight or in a car (which I am not driving). If I have to wait in a line, it is very frustrating for me. So I work puzzles. Really lessens my anxiety. 0 of 0 people found the following review helpful. Excellent sudoku book By MobileGFX Very convenient to keep in the car, for Dr. Visits etc. 2 of 2 people found the following review helpful. A good variety of suitably challenging puzzles! By Paul Weiss What a treat! A nice variety of sudoku, killer sudoku and kakuro set at a level where even the "gentle" puzzles require a little bit of thought and patience beyond the straightforward application of the most basic solving techniques. Probably an excellent book for the complete beginner as well because the text introduction that outlines some of the solving hints is considerably more comprehensive than most books you'd find on the supermarket shelves these days. Definitely recommended. Paul Weiss
