Kakuro teaches your child logical thinking and deductive reasoning skills, even at a young age. Kakuro improves critical thinking and making quick decisions based upon available evidence.

Kakuro is a brain game that helps to train the brain of your child. In addition, Kakuro demands attention to detail - noticing patterns, spotting opportunities, and finding the right moment to make a move. Kakuro is not only fun and interesting it might just help prepare your kids for better success in school and in life. The goal of Kakuro is to insert numbers into the white cells. Possible numbers are always 1 to 9. The sum of each horizontal block must equal the clue on its left. The sum of each vertical block must equal the clue above it. You can only use a number once in each horizontal or vertical block. I guarantee that every logic puzzle in this Kakuro book has been carefully checked to ensure that each puzzle has only 1 solution. Kakuro is also known as Cross Sums, Kakro, Kakkuro and Cross Addition. Kakuro is also quite often misspelled as Kakura.
