Mario Testino : Kate Moss by Mario Testino before purchasing it in order to gage whether or not it would be worth my time, and all praised Kate Moss by Mario Testino:

3 of 3 people found the following review helpful. Beautiful KateBy Victoria LucasThis book is beautiful. It arrived in a red cellophane wrapper. Not as fancy as the hardcover's red box, but special just the same. The pictures of Kate are beautiful and I loved seeing the shots of Lila. I did feel a bit voyeuristic about these personal photos being included, but Kate had to give her permission. At least they aren't paparazzi shots of Kate picking up her daughter from school. The book itself is huge, measuring about 11.5 in x 15.5 in and very heavy. The paper is thick and textured, so no fingerprints get left behind on the pages. The index shows all the pictures again, and smaller, and includes where and when the photos were taken - very nice. The photos aren't in any chronological order and you can tell the 1995-1997 photos easily, but after that it does get hard to place the timeframe, which is what makes Kate so amazing. If you are a

fan of Kate Moss then buy this book. It's full of skin and nipples and Kate-face.0 of 0 people found the following review helpful. Five StarsBy Mathews Design GroupGreat book.0 of 0 people found the following review helpful. Five StarsBy Antonina lauragreat book if you like moss and testino

Fashions dynamic duo: Mario Testinos tribute to his greatest muse

About the AuthorPeruvian-born Mario Testino travels extensively shooting for Vanity Fair, American, British, and French Vogue. Other clients include Burberry, Versace and Dolce Gabbana. His solo exhibitions have shown in museums and galleries worldwide, including the National Portrait Gallery, London, and the Museum of Fine Arts, Boston.
