**Tetsuya Miyamoto, KenKen Puzzle LLC : KenKen For Dummies** before purchasing it in order to gage whether or not it would be worth my time, and all praised KenKen For Dummies:

0 of 0 people found the following review helpful. Travel sized convenience, quality paper for erasureBy L. BrandonKenKen is yet another addicting number puzzle like Sudoku. I had wanted a book that explained the solving process, presented appropriate puzzles, and tossed some humor in between. I got all three with the additional bonus that the paper doesn't shred or smudge when using your white vinyl eraser. I would recommend this to friends who are

interested and want an introductory into number puzzles, or have gotten bored with Sudoku.0 of 0 people found the following review helpful. Fun and challenging!By trudiGreat puzzle book!0 of 0 people found the following review helpful. Five StarsBy Dmitriy IvanovGreat book!
