I like to basically go through the story elements and boss fights on my own. However, just the lists of command recipes ALONE made it worth it to me. Its a surprisingly complex system that is hard to figure out without something like this. The other reason I got it is just because I'm a huge KH fan and like to collect the game guides for all the games I get :)0 of 0 people found the following review helpful. Amazing!!By Brandon TrumanAmazing!!! Anything and everything you want to know about Kingdom Hearts 2 is in this book. Very detailed

and amazing art and pictures. 3 of 3 people found the following review helpful. Incredibly Helpful Birth By Sleep Guide By Rob C. Amazing book with everything you need to beat the game and get that secret ending. Nice glossy cover and high quality paper makes it a durable book. The only thing is that you have to be careful if you don't want to spoil the game. Only look in the section of the character you're playing or you might be tempted to look at the others. Oh and be careful about the bestiary because of course it's got the faces of the final bosses and those are HUGE SPOILERS. anyway 5 out of 5
