Joseph Akel, Rubens Fernandes Jr. : Klaus Mitteldorf: Next before purchasing it in order to gage whether or not it would be worth my time, and all praised Klaus Mitteldorf: Next:

For over 35 years, Brazilian photographer Klaus Mitteldorf (born 1953) has been at the forefront of fashion and fine-art photography, noted for his visual aesthetic that combines reinvention with a relentless curiosity for the limitations of the medium. Whether in his early photographs from the 1970s documenting the surf culture of So Paulo and Rio de Janeiro, or his later editorial work for publications such as Vogue Brasil, Mitteldorf's images are celebrations of light and the human form. With Next, the artist once again pushes the boundaries of photography, eschewing traditional forms while radically recasting everyday urban scenes into vibrant, graphically layered images that recall the pioneering works of Lszl Moholy-Nagy and Man Ray.
