Good for the mind and walking back and forth to the Bridge Room. Knack bridge is an easy to follow reference book. As you get better at bidding and play, this book allows one to review mistakes and therefore become a better player. I am always lending my Knack to others in our community.0 of 0 people found the following review helpful. Easy readingBy Jim Hill :)I found the material very easy to follow except at the examples. The solutions didn't,t always jibe with the hands shown. Or there were no solutions given. Much of the material was helpful and a good reminder to the steady player.

Bridge is a famously challenging card game, one that's next to impossible to learn without a whole host of visual aids. But books on the subject all too often seem to ignore this. Enter *Knack Bridge for Everyone*, which takes a step-by-step, visual approach to explaining the game clearly to beginners and intermediates. With 400 full-color photos, as well as numerous charts and diagrams, it begins with the rules and the fundamentals of bidding, play, defense, and scoring. It then takes the bidding up a notch by introducing more bidding techniques and strategies for winning.
