Raymond M. Smullyan : Lady or the Tiger? And Other Logic Puzzles Including a Mathematical Novel That Features Godel's Great Discovery before purchasing it in order to gage whether or not it would be worth my time, and all praised Lady or the Tiger? And Other Logic Puzzles Including a Mathematical Novel That Features Godel's Great Discovery:

10 of 10 people found the following review helpful. An overlooked gem
By Dr. Hoenikker I find it surprising that this book is almost unknown and out of print. This collection of logic puzzles is easily one of the best ever written. Starting with a small set of lighthearted teasers, continuing with progressively more serious problems, including probably the most complete variations on liar/knight and metapuzzle themes, and finishing with the best amateur level introduction to "serious" mathematical logic I have ever seen. The ideas are presented with amazing clarity and in the form digestible to the most casual reader, preserving the beauty but without compromising the essence of the arguments. Don't let this one get away if you can find a copy.

Intellectually stimulating
By Muthukumar U This is a fine book with independent chapters that can be dipped into when you want some good intellectual company. The first few puzzles got me hooked. Smullyan is very good at giving a new twist to old puzzles.

By A Customer What a shame that this book is out of print. It is another of Raymond Smullyan's wonderful logic puzzle books; one that I found almost as challenging as *To Mock a Mockingbird*. Smullyan is a first rate mathematician, and it is quite a testament to him that he is able to construct these logic puzzles that are both lots of fun to solve and also teach non-mathematicians how to think about serious logical issues. I found this book at a garage sale. Maybe you'll be lucky too!

The paperback reprint of Smullyan's most successful book of puzzles--a mind-bending, pleasurable romp through the world of logic. For all ages and all levels of difficulty, these puzzles range from those that can be solved in minutes to those that will beguile for hours.
