Nice pictorial account of Lancaster county By S. Peffer This book is a great reminder of Lancaster County. It is a nice addition to the Pennsylvania book by the same company. This book shows a broad range of cultures and landmarks in Lancaster.

Our local experts tell the whole story of this remarkable area.

A reader will gain a distinct flavor of the county, its people and their communities. -- Pennsylvania Lavishly illustrated by local photographers Keith Baum and Jerry Irwin . . . lovingly documents Lancaster County as residents see and

know it. -- New Era, Lancaster, PA The rich variety of photographs is the 'frosting on the cake' of the book-and the 'cake' itself is substantial. Klimuska gives more details than are ordinarily found in coffee-table books. His material is clear and easy to read. . . . But the easy reading is deceptive. The text is packed with details and little-known facts about the area. Klimuska's narrative also reveals how deeply he cares about his subject. -- Tribune- , Greensburg, PA This is a big, beautiful picture book for the coffee table. The book is well written well integrated with the excellent pictures. It's a beautiful book about a beautiful place people. -- Travelwriter Marketletter About the Author Ed Klimuska has been a reporter in Lancaster County for twenty-five years.
