But as he got older, he didn't see as well, and he didn't know most of the new TV shows or stars. So he had problems completing the puzzles. I purchased this for him for Christmas, and it has turned out to be his favorite present. The puzzles are easy enough that he knows most of the answers, and the print is large enough that he can see it with ease. One important fact is that this book is heavy (think telephone book heavy). He can still lift it, but he has mentioned that he wished it was lighter. Overall, great product that will provide many hours of entertainment. Great for vision impaired, and for those who remember the 'old days' more than the current days. :)0 of 0 people found the following review helpful. My 84 year old husband loves these books. Perfectly suits our needs.By martha callahanI bought some crosswords from this series last year and liked them so well that I searched for more. My Mom, who is 92, and I do one of these together every morning. They are easy on the eyes-- unlike some "large-print" puzzles which have large grids but tiny writing! In her prime, Mom used to do only the "Expert" puzzles, and then hand the books down to her poor, crossword-challenged daughter, A.K.A. me. Those days are gone, but Mom now enjoys the level of challenge found in these books. I would rate them a "medium" challenge. Some of them have a theme or special clues, some don't. I highly recommend this series for someone who wants to avoid eye strain and isn't looking for the challenge of The New York Times.

Intended for crossword lovers who can enjoy their favourite pastime without the frustration of trying to read miniature clues and fill in tiny boxes, this title includes 125 puzzles and has large type sized grids with numbering.
