ClarkThe back cover claims this book will "challenge your brain....," "baffle you....," and "test your wits..." I'm afraid this just isn't the case. Minus two points because these puzzles require very little pondering, contain a great deal of repetition, and certainly do not challenge, baffle, or test one's word knowledge. Even a novice cruciverbalist should be able to breeze through this book. Three stars, however, because both clues and puzzles appear in extra large print, and are very easy on my old, tired eyes.0 of 0 people found the following review helpful. Great for older folksBy NYAutumnMy mother in law loves this series of crosswords. The

large print makes it easy for her and the spiral binding allows it to lay flat while she is doing them.
