Nitroplus : Sonicomi Artbook: Super Sonico Picture Album before purchasing it in order to gage whether or not it would be worth my time, and all praised Sonicomi Artbook: Super Sonico Picture Album:

0 of 0 people found the following review helpful. Great for Super Sonico fans! By Customer Very good for what it is, but not what I expected. This is a very risque artbook with many sexually suggestive images, including "lotion" all over a woman's thighs, whip-cream covered nipples, and a girl bound to a bed wearing only her panties and a bra. It's all very sexy, and the art is all high quality, but I wish there were a few more "cute" illustrations and less "sexy" ones. If you've seen any Super Sonico ani-figures, these are the illustrations many are based on. There are a few cute ones, as well as a neat section of Sonico cosplaying anime and video game characters from Marcus Fenix and the Master

Chief to Madoka Kaname. If you want/ are OK with full figured sexy anime girls, this is an excellent book. If you aren't OK with a girl posed sexily wearing minimal clothing, this ain't for you. Also beware if you are thinking of this as a coffee table book. Quality wise, this is one of the better artbooks I've purchased. The pages are all sturdy, smooth paper, there are no printing errors, and no pixellation / image artifacts as can be seen in a lot of American artbooks. 1 of 1 people found the following review helpful. Awesome Sonico By Leslie This book is about a girl called Sonico with pin-ups, crossover costumes, images from the digital novel, and much more. It's your typical Japanese artwork where you will not see anything than your risqué stuff of the West at best, but it is quite well done anyway. The book is in glossy paper with a biography of her in the front, details of her game on computer. This very buxom girl will take you through almost all of her life, but lets you into some parts which are her modeling (awesome in a bikini), music, Gemaga, her merchandise, a variety of things, and in the back are all the outfits for her and how to use them while you are immersed in her game. It is an excellent book if you are into Japanese Manga and would be a good choice edition to add to your library, or as an extra to her game "Super Sonico Communication First Impression". 0 of 0 people found the following review helpful. Beautiful illustrations and must have for Sonico fans By MikuMiku Excellent oversize art book filled with pages of awesome drawings of Sonico and her costumes. I especially liked the co-play outfits like Hatsune Miku and Madoka. Unlike some art books I have purchased, this book is 99% full-page pictures. One or two pages for a table of contents for each section. Definitely for mature audiences as labeled; not something you want to leave on the coffee table for little Jimmy to browse through. There are no nudes but many suggestive pics. Good book if you are an anime collector or like the video game / anime.

Fashion model, musician, and video game star Sonico can do it all! Whether shes doing a bikini photo shoot on the beach, or rocking out on stage, Sonico is always ready to leap for that distant star. The Super Sonico Picture Album collects all the best images from the Sonicom visual novel, plus merchandise artwork, pin-ups, crossover costumes, and more!
