The thickness of the paper is perfect (not too thin like other coloring books) and the pages are a crisp white so my pencils color well on it. The designs on the pages are detailed and exciting. I can't wait to spend time coloring with this book!3 of 3 people found the following review helpful. Love it!!By CustomerBeautiful coloring book! After being mesmerized by the beautiful cover I opened it to see the even more beautiful images (as the title indicates animals, flowers, insects, etc.). Each picture containing a beautiful pattern inside the design. The pages are the perfect thickness for whatever medium I want to use (watercolor, paint, marker, etc.). PLUS, each of the pages are perforated so I can tear them out once I have finished coloring them!! Very excited to jump into this book and would absolutely recommend it to anyone who asks!!3 of 3 people found the following

review helpful. Great Variety!  
By Customer  
This coloring book includes a wide variety of images with different levels of difficulty. There are images for beginners who are just starting out in the coloring world, and also images for advanced colorers! The paper is just the right level of thickness and the perforated edges make it so easy to share your drawings. I would highly recommend this book to anyone just starting or people that have been involved for a while. I am already looking forward to my next purchase from Blue Star Coloring!

Our favorite coloring book company. The Skimm Renowned illustrator Suzanne Joyner and Blue Star Coloring team up once again with *Soul of the Woodland* in the Celebration Edition, with beautifully re-designed aesthetics, an enhanced cover and perforated pages. Features 30 patterns of woodland scenes, including detailed forest creatures and flora, lovingly reproduced with industry-leading quality. . Heavyweight, artist-grade paper provides an unmatched coloring experience and allows for experimentation with different media.

Because of my PTSD, I deal with a lot of stress, anxiety and hyper vigilance. I forgot all about that once I started coloring. This book features some beautifully detailed pictures of well known woodland animals such as foxes, squirrels, birds, turtles, raccoons, and owls. It also has flora, trees and so much more. It is such a great book.  
About the Author  
Suzy Joyner found her passion for drawing as a child growing up on Long Island. She filled her school notebooks with illustrations of the many little lives that populated her backyard snails, bees, worms, flowers, plants and many other garden denizens. Now residing and creating in Denver, she has channeled her love of illustration and the majestic natural scenery of Colorado into three coloring books: "*Soul of the Woodland*," "*Woodland Christmas*" and "*Spirit of Halloween*." She is currently working on a new coloring book for Blue Star.
