before purchasing it in order to gage whether or not it would be worth my time, and all praised Sport, Power, and
Society: Institutions and Practices: A Reader:

This comprehensive collection examines the culture of sport and its relationship with various social institutions. The editors first provide a broad overview of the field and describe the ways in which the concept of sport as a meritocratic

contest is undermined by the powerful social structures within which it is embedded. Sections focus on political economy, violence, the media, education, politics, fans and community, and the body. Primary readings from noted scholars in each section address current issues such as the presence of big-time sports in educational institutions; the effects of corporate media; race and class relations; professional athletes' ties to politics; and how sports alter perceptions and practices regarding beauty and health. In addition, entertaining and provocative essays from journalists supplement academic readings and spotlight key issues. Section introductions from the editors connect the readings to a theoretical framework that explores the perspectives of new institutionalism, cultural hegemony, social capital, and symbolic interaction and cultural construction. Providing a cohesive foundation for a wide range of readings, *Sport, Power, and Society* is a must-have resource for understanding the current issues and debates surrounding the interactions of sport and society.

Bob Washington and David Karen's *Sport, Power, and Society: Institutions and Practices* is an invaluable addition to the literature covering so many of the current controversies in sports, including the political economy of pro sports, sports in the media, sports in education, and, of course, sports in politics. It includes a variety of points of view on all sport subjects, concluding with sections on the fans and community in sport, violence and injuries, and body culture, which make fascinating reading. It is a compelling anthology of articles from our best writers on this subject. I highly recommend it. Richard Lapchick, Chair of DeVos Sport Business Management Program and Director, Institute for Diversity and Ethics in Sport
