3 of 3 people found the following review helpful. Its okay..By JennabretThis was significantly smaller than expected and I had hoped for more of a trivia type of puzzle book (as in the answers were specific people)..instead there is one puzzle for each sport and it basically just words that go along with the sport - like Hockey, puck, stick, etc...its okay, just not what i thought it was.1 of 1 people found the following review helpful.
