Great for your coffee table and a talking piece By CMarz19 This book is essentially a tribute to the last 50 years of the Sports Illustrated Swimsuit issue. The book is large in size and is full of thousands of high quality images from the iconic magazine. There are lots of pictures that made the cut, plus a lot of extras and behind the scenes pictures to give the reader a more personal, in the moment feeling of being there at the shoot. The pages are thick paper and the ink quality is high. Very sharp colors and hardly any blurring throughout the book. Definitely a nice book to have on your coffee table. Since it's Sports Illustrated, the pictures are classy and tasteful enough for any audience. 0 of 0 people found the following review helpful. ... coffee book I have ever seen the pictures are great quality and instead of using it as a coffee ...
