Very interesting for the photography....By Learning All The Time I'm a middle aged female professional photographer so my reasons for purchasing this are probably different from the majority of purchasers. But, it is an absolutely beautiful book, and there is a lot to be gained by studying the posing and lighting of these gorgeous girls. I photograph a lot of high school seniors, and the book is full of great, swipe-able ideas. Even that cover pose, imagine a fully clothed high school girl leaning against a door jamb and an off-camera strobe camera left. And the text was rather interesting too, information about the shoots and the girls. Well anyway. Loved this book. 1 of 1 people found the following review helpful. great pictures, Well done By Bill S. Yeah, the girls are pretty. But the Victoria's Secret catalog is free. Bought these books as a reference to improve my Photog skills. Great photography but not the learning tool that I wanted. Of course it is not intended to be a Text book. Still great pictures, Well done. I gave the 3s books to my 14 year nephew. He loves them too. Hi Mother Dearest does not! 0 of 0 people found the following review helpful.
