double sided starfox Zero poster and of course the e-strategy guide code.. in the information side, it has everything you need to play starfox Zero, even a tutorial on how to control the arwing and the other vehicles, it also has a character gallery which I find great because I like the style art of this game, you can find any collectibles in this game thanks to this guide.. bottom line even though I wasn't planning in using for its original purpose (mostly only for collection) it does a great job!
