I like game guides because if I can't figure something out or I'm not sure on what I need, it'll help me out - especially with those recipes!0 of 0 people found the following review helpful. It is in good shape as advertised on this websiteBy David BeamI received my book a day earlier than its intended delivery date. It is in good shape as advertised on this website. The only messup I found was inside the book. I found a map for Final Fantasy 10 with every character's map guide where you spend your Sp points. It is okay though because I have the game for my PlayStation 2. All in all no problems and thank you for

your speedy delivery. 0 of 0 people found the following review helpful. A through strategy guide! By The Medicated This book helped me find out about a bunch of secret quests and how to fulfill them! Also it helped me get all the endings! It's a thorough strategy guide!
