**Prima Games : STAR WARS Battlefront Collector's Edition Guide** before purchasing it in order to gage whether or not it would be worth my time, and all praised STAR WARS Battlefront Collector's Edition Guide:

3 of 3 people found the following review helpful. As a strategy guide this is pretty poor. Decent if you change your expectationsBy steve nomesThe information in the guide itself is almost completely useless. It is English but the word

order and vocabulary choices make it read like it was translated as opposed to written native. This would be fine if there was any good strategy tips but most of the information is very general and probably only helpful to the newest of players. Anyone with fps or other competitive shooter experience probably won't find much helpful here. There was even one line that I could not stop laughing after I read it. This is the only thing I will copy paste from the guide because it illustrates the point perfectly: "Each and every blaster shoots fairly straight. With any single fired shot, you will more than likely hit wherever your crosshairs are pointing." This is the type of information anyone who didn't even play the game could come up with. That being said there are a few things this book does well.-The collectible maps are easy to read and helped me find all the hidden collectibles fairly quickly.- Layout. The book is organized in a logical manner. no index hurts it a bit but there is a pretty good table of contents and really if your using this guide as a straregy reference its probably not going to be useful.- discounting the actual strategies; as an introductory list of info about the game this does fairly well. It goes over all the game modes blasters, heroes and cards in a way that is simple and easy to understand (this is also the problem if you are looking for more in depth strategy)- Art. The are thst comes in a separate sleeve is high quality and very good.Overall I'd give it 3 stars because as a collectors item it gets the job done so there is some redeeming value there. I've read a lot of guides from prima and some are hit or miss, it's probably the same here. Only get this if you want a collectors guide and may use it for basic introduction to the game.0 of 0 people found the following review helpful. Classy!By rsFor a game guide, this book is classic - very nicely done. Love the hardcover and it has a pleasant texture to it too. Fantastic full-color pages are laid out nicely and it's easy to find what you're looking for. No really earth-shattering pointers but definitely has some good tips and the maps are great for finding hidden objects (like Sarlaac Pit!)Don't know if I'd recommend the standard guide but I highly recommend this deluxe edition if you're a Star Wars fan. The lithographs are well done too!1 of 1 people found the following review helpful. Beautiful Star Wars reference, but not great as a gaming guide.By J.G.Beautiful book, great lithographs (got the collectors edition). Not amazing as far as helping the gamer. I did learn a few things, not much. But the Stars Wars reference type content is well done and nicely laid out. So if you want to add to your Star Wars collection or are a big fan of Battlefront you might want to pick this up. If however you wants a top notch game guide this probably is not going to be it.Rarely do Prima Games make quality guides. Often they are poorly written and can be hard to understand due to their lack of good explanations. They always miss some frustrating simple stuff. Like how about a simple control layout/reference page. Control information is peppered through out but not consolidated in one place and no where did I find infantry controls, just vehicle controls.But as I said I bought this game as more of a Star Wars collectible, I knew what I was going to get in terms of a "guide" so my expectations were met. My expectations were exceeded however on the reference materials and layout.

The STAR WARS Battlefront Collector's Edition Guide includesBONUS Lithograph Set - Includes four high-quality lithographs featuring art from Hoth, Sullust, Tatooine and Endor, all contained within an envelope to keep them protected.Earn every Achievement/Trophy with our thorough coverage.Dominate battle with expert strategies for multiplayer matches and co-op play.Learn about the best uses for every weapon and vehicle in the game.Free mobile-friendly eGuide!
