McAdams I am so excited that Wizards Of The Coast is issuing terrain tiles for the Star Wars d20 game they publish. Hand drawn maps just don't quite draw in your players like these beautifully illustrated and gorgeously manufactured tiles do. Their quality is excellent, the scenes they depict are detailed and very apt to the Star Wars universe. These terrain tiles help with all of the games I run. I have two sets of these tiles, to enable me to setup larger campaign maps. I can't wait for them to release more versions and scenery for these terrain tiles. Great product! See the photos I have uploaded (above) showing what all of the tile sheets look like when you first get them. 0 of 0 people found the following review helpful.

My friends and I have been using for Warhammer 40k combat patrol games and I'll pick up a few more sets to allow for a full table of corridors.The cardstock is high quality and take a beating, it's textured so as not to slide. For the price and ease of use nothing comes close.

Illustrated terrain tiles for use with the Star Wars(TM) Roleplaying GameThis product adds a new dimension to the Star Wars Roleplaying Game and gives Gamemasters an easy-to-use and inexpensive way to include great-looking terrain in their games. This set provides ready-to-use, configurable terrain tiles of various shapes. Use the tiles to build your own Imperial bases, Rebel redoubts, and fringe outposts!This terrain accessory contains six double-sided sheets of illustrated, die-cut terrain tiles printed on heavy cardstock.
