David Hodgson : Star Wars Knights of the Old Republic II: The Sith Lords (Prima Official Game Guide)

before purchasing it in order to gauge whether or not it would be worth my time, and all praised Star Wars Knights of the Old Republic II: The Sith Lords (Prima Official Game Guide):

0 of 0 people found the following review helpful. Considering what the Game Turned out to be, this is the best you can do. By Nero For all of the problems with this game, the guide does its very best to try and give you everything. Prima has never been one to not give it their all on a guide and this proves that. For those who don't know, KotOR II was very much an incomplete game and was pushed out way ahead of schedule after publisher LucasArts pressured developer Obsidian Entertainment to get it out for the holiday season. The game was incomplete and it showed. That

said, Prima always does its best with what they have. Sure there are inconsistencies and even some really incorrect information, but that can be pinned directly on the publisher for the rush so things will be inaccurate. Most of these however are on damages and item descriptions which, given the nature of the items in the game, were probably bound to happen anyway. RPG guides have always had inconsistencies and will always continue to have them. Where this guide does shine however is on giving info about your companions, including some good kit layouts, providing key plot details, excellent maps, and giving great details about sidequests in the game. Honestly, given everything about this game, the fact it is still quite accurate says something about the guide itself, and Prima. 0 of 0 people found the following review helpful. Exactly what I was looking for! By Devon Prompt delivery, delicately packaged, and exactly what I was looking for! Book had some slight signs of age on its outside (faded ink in a few parts) but I'm not the kind of unreasonable prick that's going to ding them for that on a decade old book that was never vacuum sealed when stocked to begin with. Besides, it had the exclusive poster still inside of it (which was the biggest reason that I opted for the new one over a used one). Very pleased and it was/is the best price I've seen for this item in New condition! 0 of 0 people found the following review helpful. This guide was pretty helpful but does contain some incorrect or incomplete information ... By Thorhammer54 This guide was pretty helpful but does contain some incorrect or incomplete information for example in one part it talks building influence with your team members a lot of this info incorrect \ incomplete in another it talks about the fastest way to get a lightsaber is to build your own not true depending on your skill level at video game there are 3 ways that are faster overall it was fairly useful definitely worth buying
