BradyGames : StarCraft II: Heart of the Swarm Collector's Edition Strategy Guide (Signature Series Guides) before purchasing it in order to gauge whether or not it would be worth my time, and all praised StarCraft II: Heart of the Swarm Collector's Edition Strategy Guide (Signature Series Guides):

3 of 3 people found the following review helpful. Lots of information, mostly focused on multiplayer. By AydanOverall, This is a very solid, well-written, illustrated and comprehensive strategy guide. It works great equally as a useful guide and as a piece of coffee table decor if all your friends are nerds. The multiplayer aspect is heavily covered, especially the nuances for a beginner to this demanding game. However, as multiplayer is very fluid in terms of unit updates and balancing, I do not feel that a hardcopy book is the best option for covering this portion of the game. I would have instead preferred to see more detail during the campaign walkthrough. Do not get me wrong, the

guide does cover each mission in sufficient depth to walk a player through the entire campaign. I would just have liked a bit more guidance on completing some of the harder mission achievements. I still heartily recommend this book2 of 2 people found the following review helpful. Beautiful InformativeBy Kindle CustomerThe guide cover is designed well. The main reason I got the guide is that I wanted an easy way to see where the bonus objectives were without going to google in game or on another pc. It not only showed were they were but told you the right times to go after the bonuses so that you wouldn't be hit hard while your forces were away. Each level had a vast amount of information pertaining to it spread over 3+ pages. The second half of the book explained in detail the units and the multiplayer maps. This gives you the chance to study up on the maps before you jump right in to the new multiplayer maps. For the price it is at now it is definitely worth it. Plus it is a beautiful addition to my blizzard collectors edition collection. :)3 of 3 people found the following review helpful. it's the worst ebook I have ever experienced in kindle.By Ricardo CabreraDon't get me wrong, I am an advocate of ebooks and honestly I could no go back to printed form even if I wanted to. But this "ebook" is far from useful. The contents are wonderful on the printed version, but what a horrible implementation on the kindle platform. It's unreadable in any device, I have a couple of them. I wish I could get my money back.

The Official Collectors Edition Strategy Guide In the collectors Edition Strategy Guide Collectible Paperfold Models - Exclusive pack of paper models printed on high-quality card stock, inspired by the new units in Heart of the Swarm using actual in-game skins.
