part of a series of four french books (the others being about declarer's play in trumps, defense in NT, defense in trumps); as far as I know the other three were never translated to English, which is a pity, as this is one of the best series of beginner-intermediate books on bridge card playing ever published. This one explains in the clearest way the various basic declarer's tactics in NT contracts. Absolutely worth getting if you can find a copy. 1 of 1 people found the following review helpful. Best book I've read on playing NT contracts By B. Einhorn Clear, concise, with plenty of problems. Intermediate level. The Bird books (Bridge Technique) are ok, this is better, with more problems.

An introduction to card play in no trumps, this bridge guide includes 50 deals in ascending order of difficulty which present the range of typical problems, challenges and opportunities that occur in no trump contracts. It also contains various exercises designed to reinforce the lessons.
