Nothing New Here for FansBy Mike MacenasYour enjoyment of this book will be dependent on how much you know the Stills story going in - those looking for new information or insights or updated interviews will be disappointed. Small photo section. Stills is certainly a talent worthy of a full blown exploration - but this isn't it! 1 of 1 people found the following review helpful. A great read for any Stephen Stills

fan!By ShakeyfanUntil Stephen writes his own story this one will do for Stills fans. Many of the stories told in this book may have been told before but it's great to have it all in one place now. And there may be a few things that the average music fan may not know about this legendary musician. So don't pass this one up...especially you CSNY fans!1 of 1 people found the following review helpful. Enjoyed it.By Dame BibliophileInteresting book. Enjoyed it.

Stephen Stills is one of the last remaining music legends from the rock era without a biography. During his six-decade career, he has played with all the greats. His career sky-rocketed when Crosby, Stills Nash played only their second gig together at Woodstock in 1969. With the addition of Neil Young, the band would go on to play the first rock stadium tour in 1974.Stephen Stills is the only person to have been inducted twice in one night into The Rock and Roll Hall of Fame. Throughout 2016 Stephen Stills will be on tour with his new blues/rock trio The Rides.
