Rick Barba : Stonekeep: The Official Strategy Guide (Secrets of the games series) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Stonekeep: The Official Strategy Guide (Secrets of the games series):

0 of 0 people found the following review helpful. New to dungeon crawlers? This should help you! By Lengyel Zoltan I found Stonekeep to be a very difficult game, especially since I'm completely new to dungeon crawler role-playing games. But this book helped me out tremendously, and I'm more in tune with the genre. The actual stats, monster descriptions and combat tutorials are useful. The walkthrough is accompanied by very detailed maps, and can be a life-saver. I highly recommend this old book for those who are new to Stonekeep. 0 of 0 people found the following review helpful. Exactly what I thought it would be! By Customer I had owned this book previously, however, was lost in a move. The product was exactly what was expected. Thanks. 1 of 1 people found the following review helpful. Great book. By Customer If you enjoy first person dungeon crawlers this is one of the best. It is only 6 dollars on GOG and runs on modern computers. This strategy guide contains detailed maps, walkthroughs, item and enemy

information, and even the formulas used to determine things like where you hit when you attack and so forth.

One of a series of strategy guides for computer games.
