UDON : Street Fighter Tribute before purchasing it in order to gage whether or not it would be worth my time, and all praised Street Fighter Tribute:

The title is embossed on the front cover and on the back is 4 character's faces in between embossed black. The pages will sometimes be made of material different from the rest of the book for that specific page. The art is wonderful (although I have complaints for a few of them), and overall I can't really say there's anything else significant about the quality of this book.Except for one; the binding is very bad. After just one hour the binding started to fall apart. It's a huge blemish on an otherwise perfect printing.I'll be sending my copy back to get another one and not unseal it.0 of 0 people found the following review helpful.
