I can honestly say the artwork is beautiful and I did enjoy reading some of the character descriptions. If you're thinking about getting I then I say take the plunge. Its not very expensive and it looks great on bookshelves.0 of 0 people found the following review helpful. ultimate SF resource for fans! By mukremincitir Excellent resource for SF fans. It has all SF characters to this date with detailed character bios, their relationships with other members of the cast, and nice artwork. Artwork and information is updated from the previous version and is more visually appealing. No EX characters included, only characters from the official titles are included. All NPCs are also represented. I hope they continue to update it as we get new SF games.
